FOREST FIRE WARDEN'S REPORT

AN APPEAL FROM YOUR FOREST FIRE WARDEN

In these days of constantly rising taxes and wages, an unnecessary expense is an added burden on everyone's pocketbook—yours and mine. Forest fires cost money and damage our valuable woodlands. Lightning sets some forest fires, but we have no control of lightning. Children cause many fires. Ninety-eight percent of our forest fires result from human carelessness—our carelessness. This, we—you—and I can do something about.

When we require you to obtain a permit for out-of-doors burning or forbid you to burn on days of high fire danger or set up regulations—hours, etc., governing the use of the town dump we are simply protecting yours and the town's interests.

The ever present threat of forest fires is the concern of all of us; the responsibility for preventing them is ours and the costs of extinguishing are ours. We can do something about this problem, by being aware of and alert to the danger and by cooperating with your warden.

Do the things that are required of you —

1. Follow the warden's directions.
 2. Secure the required burning permit.
 3. Keep your fires under control.
 4. Completely extinguish your fires before leaving them.
 5. See that your children are properly cautioned.
- Everyone will benefit by it.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Madison:

I submit my first report as Superintendent of Schools of Union No. 36. The following list indicates the administrative activities for the period from July 1, 1961 to December 31, 1961.

Teacher visits	339
Regular School Board meetings	45
Special School Board meetings	26
Speaking engagements	7
P. T. A. Meetings	8
Conventions & conferences	5
Teachers meetings	7

During the school year 1960-61 the teachers in the Madison School were: Principal Bertram Berube, grades 6, 7 and 8; Mrs. Ruth Chick, grades 4 and 5 and Mrs. Linnie Giles, grades 1, 2 and 3. Mr. Berube resigned at the end of the year to do a year of graduate work.

At the beginning of the current year Mrs. Chick and Mrs. Giles returned to their respective teaching positions. Mr. Berube was succeeded by Mr. Rodney Russell who is a graduate of Gorham State Teachers College, Gorham, Me.

The school health service continues under the efficient direction of Mrs. Rebecca Sanborn, R. N.

Mrs. Margaret Ward continues serving delicious meals in the lunch room.

The district purchased a new school bus which went into service at the beginning of the school year.

Guidance

The objective of a guidance program cannot be satisfactorily achieved unless all teachers are conscious of those objectives and strive toward that end. The role of the classroom teacher in the guidance program is an indispensable one. In every subject there are common and unique possibilities for contributing to the objectives of the guidance program. Guidance should be an outcome of all teaching activities.

Cumulative Records

The Guidance Program is dependent upon an adequate knowledge of the individual. In our schools there is a cumulative record for each pupil. Guidance information is entered under the following headings:

1. Personal data
2. Family and community background
3. Scholastic record
4. Health record
5. Objective test results
6. Character ratings
7. School activities and interest
8. Entrance and withdrawal record

The objective is to construct a growing, permanent record of valid information which will accompany each child throughout his school life.

The cumulative record kept up to date furnishes information which will be invaluable in making pupil adjustments. Principals and teachers find its greatest value in determining status and growth in the child's general and specific area development, in planning **new programs** and grade placement.

The task facing the leaders of education is to so

organize and administer our educational institutions that the best interest of every individual will be served and that this process will, at the same time, contribute to the fundamental quality of our culture and add strength to our national character. We must make sure that the maximum cultivation of the individual's intellectual, moral, artistic, and spiritual capacity that makes of him a free person, yields also the protection and perpetuation those institutions that are essential to a free society.

Like so many other departments of our society and culture, our educational establishment at many points is comfortable and soft. At times we have been far too willing to entertain and to tolerate when we should have disciplined, directed and inspired—inspired by great teaching, of the type that moves the mind to a love of knowledge and to an insatiable demand to possess and to create it, directed by wisdom that grasps the proper ends of learning and disciplined by that internal discipline whereby a moral person orders his life, determines the means appropriate to his ends, and achieves a proper integration of his intellect and affections.

The schools of Madison are an investment in people and represent a significant part of our vast heritage which we Americans enjoy. One of the fundamentals and most vital parts of our governmental structure is the guarantee of free, public and universal education locally administered. It is my sincere hope that the citizens of Madison will continue their support of this created obligation.

Realizing the many challenges with which the American people are faced today, I would like to urge

the citizens of Madison to keep working hard to improve their school system, because I think that we all must realize more than ever before that the foundation of our democratic society is built upon the education of its children.

I feel that the year which has elapsed has been one of progress. Whatever gains have been made have been the result of the cooperation of members of the School Board, school personnel and parents. For this cooperation I wish to express sincere acknowledgement.

Respectfully submitted
ALFRED W. THOMAS
Superintendent of Schools
